Professional Objective

A Bachelor of Computer Science (Software Engineering) with Honours graduate from Universiti Teknologi Malaysia, having recently completed the degree and currently awaiting graduation, and a Diploma in Computer Science alumnus of Universiti Malaysia Pahang, with over five years of full-stack programming experience with hands-on exposure to real-world projects in both PHP and JavaScript ecosystems. Passionate about digital transformation and data-driven solutions that improve operational efficiency. A quick learner and adaptive individual with a friendly, approachable personality, currently seeking a Software Engineering role where PHP or JavaScript is the main language, with interest in Web Development, DevOps, UI/UX, or Quality Assurance.

Education & Qualifications

Universiti Teknologi Malaysia (UTM)

Bachelor of Software Engineering (Hons)

October 2023 – November 2026

GPA: 3.46

Universiti Malaysia Pahang (UMP)

Diploma in Computer Science

August 2021 – October 2023

CGPA: 3.33

Work Experience

Intern, Co-opbank Pertama Tawau

March 2023 – August 2023

- Supported the IT team in maintaining security systems within a banking environment.
- Worked as a sales representative, sourcing and onboarding customer-centric relationships for personal financing and Ar-Rahnu products over a 5-month internship, contributing to engaged customer relationships and retention.
- Designed advertising and marketing materials, including digital marketing content for Facebook, to support customer outreach and promotional campaigns.
- Designed posters and advertising materials as the team's graphic designer, supporting marketing and customer outreach efforts.
- Provided customer service support at the front desk.

Entrepreneur (Thrift Clothing Sales)

October 2024 – Present

- Independently operate a small resale business, managing sourcing, pricing, and customer sales, generating RM200–RM400/month

Intern, Batik Air Malaysia

September 2025 – February 2026

- Designed and built a full-stack Crew Scheduling System prototype using Agile development practices, with RESTful APIs, replacing the airline's manual, spreadsheet-based rostering process.
- Gained cross-departmental hands-on experience across 3 core functions: Cabin Crew scheduling, Maintenance Control Center (MCC), and Operations Control Center (OCC).
- Conducted an on-site operational review at KLIA Terminal 1 to understand ground operations and airport logistics.
- Worked directly with stakeholders (Captains and department heads) to scope the Crew Scheduling System and define requirements.

Projects

Subject Progress Indicator (SPIN) System for KT6T

- A centralized, data-driven academic analytics platform built for Kolej Tingkatan 6 Tawau (KT6T), replacing manual Excel-based tracking with a real-time system.
- Automatically computes student totals, class averages, and GPMP indicators across 7 grade levels (A–G); flags students scoring below 40% for early intervention.
- Built using a hybrid Waterfall-Agile methodology, with structured requirements planning followed by iterative feature delivery and continuous testing.
- Delivered 4 role-based dashboards (Admin, Principal, Head of Department, Teacher), automated year-end roll-over, a security audit trail, and one-click PDF reporting.
- Built with PHP, SQL, HTML, CSS, JavaScript. Deployed on a self-hosted server.

- Awarded Silver Medal at the Malaysia Invention & Innovation Expo (MIIX) 2026.

Crew Scheduling System (Prototype) for Batik Air Malaysia

- A full-stack prototype with RESTful APIs, structured using an MVC-inspired architecture, replacing the airline's manual, spreadsheet-based crew scheduling workflows.
- Core features included standby/duty tracking and fatigue analysis across 2 aircraft fleets (Boeing 737 and Airbus 330), plus automated leave and roster data processing.
- Built with React, Node.js/Express, and MySQL. Version-controlled using Git and GitHub.

Wafina Wedding Planner (Personal Project)

- A private full-stack web application to plan a wedding and post-wedding family life around Malaysian Islamic customs, streamlining financial and logistical planning through automated calculations and process optimization.
- Built with Laravel 13, PHP 8.4, Livewire, Tailwind CSS, and SQLite.
- Containerized with Docker and deployed on Railway.

Extracurricular Activities

Community Services

- Community Service at Kampung Wira Damai, Sungai Tua, Gombak for Santuni Madani
- Cross-Country Race volunteer for SK Padang Tembak (2), Kuala Lumpur
- Community Services for SRM ECO AKTIF @ KLSC, Stadium Bukit Jalil
- SUKMAS Manager for Futsal in UTM, KL
- Volunteer for Iftar Ramadhan Madani by MAIWP @ Setapak
- Humanitarian Aid Volunteer @ Kompleks Sukan Desa Tasik for Hari Keluarga Madani

Industrial Visit

- Festival of Ideas (FOI) at Putrajaya International Convention Centre (PICC), Putrajaya
- DXC Industrial Visit: Exploring Horizons in Software Engineering
- Launching of Artificial Intelligence NEXUS 2024 @ Dewan Merdeka, World Trade Centre, Kuala Lumpur
- World Telecommunication and Information Society Day (WTISD) @ Cyberview Resort & Spa, Cyberjaya
- OceanXplorer Tours by OceanX Education @ Pelabuhan Klang, Selangor
- SEMICON Southeast Asia 2026 at Malaysia International Trade & Exhibition Centre (MITEC)

Certifications

- US Embassy Certificate – English Access Microscholarship Program (2019–2021)
- Creanovator Challenge Champion 2017, 2019 and 2020
- Microsoft Certified: Power Platform Fundamentals
- Completed International Summer School at Tokushima University, Japan
- Silver Medal at the Malaysia Invention & Innovation Expo (MIIX) 2026, organized by DIGIT360 and RR Texnology.

Skills

Programming Languages: C, C#, C++, Python, JavaScript, PHP, SQL, Flutter

Frameworks & Markup: Laravel, HTML, CSS

Databases: MySQL/phpMyAdmin, SQLite

DevOps & Cloud: GitHub, Git, Docker, Cloud Deployment (Railway), Kali Linux

Tools & Software: Visual Studio Code, Revit, Microsoft Word/PowerPoint/Excel, Photoshop, Video Editing

Language

Malay – Native or Bilingual Proficiency

English – Full Professional Proficiency

Chinese – Limited Working Proficiency
